ACEN 2017-08

Outstanding performance

Powered by T4F and Stage 5 Yanmar engine and equipped with excellent hydraulic system and elements; coordinated and smooth compound movement of boom, bucket rod, bucket and slewing, which deeply impressed the users among products of the same tonnage.

Electro-hydraulic proportional lever controls the flow (optional)

Yanmar engine
With low noise and vibration, it is popular among compact equipment and it is easy to maintenance the main components.

Easy to transport

Superior performance, powerfull engine, confortable interior

Configuration	Standard	Optional
Cab	•	
Canopy		•
Right proportional Joystick		•
Breaker pipes	•	
Auxiliary pipes	•	•
Hydraulic quick hitch pipes		•

Comfort cab

Comfort operation environment

Wider space and wide view enabled by enlarged front windscreen and sunroof; in addition, the highquality floating shock absorber seat, imitation leather interior on the top, radio, cup holder and reading light ensure a comfortable driving experience;

Safe driving space

Frame supported cab with Fops/Tops safety certificate; regular top protection rail ensures safe driving; hidden seat belt, safety hammer, pilot lock rod, slewing parking brake, traveling parking brake and start-up mechanism of engine at neutral gear;

Simple and easy switch control

Clear monitoring instrument that is easy to operate

- List of display items
- Coolant temperature Traveling mode
- Fuel level
- Operation light
- Oil pressure warning Charging indication

- Working hours Time
- Various warning lights of engine
 Working light indication
- Overheat warning

Easy service

The door and engine hood can be open completely for daily inspection and change of filter. The left lower service hole makes easier maintenance of multi-way valve without removing covering parts.

Air filter

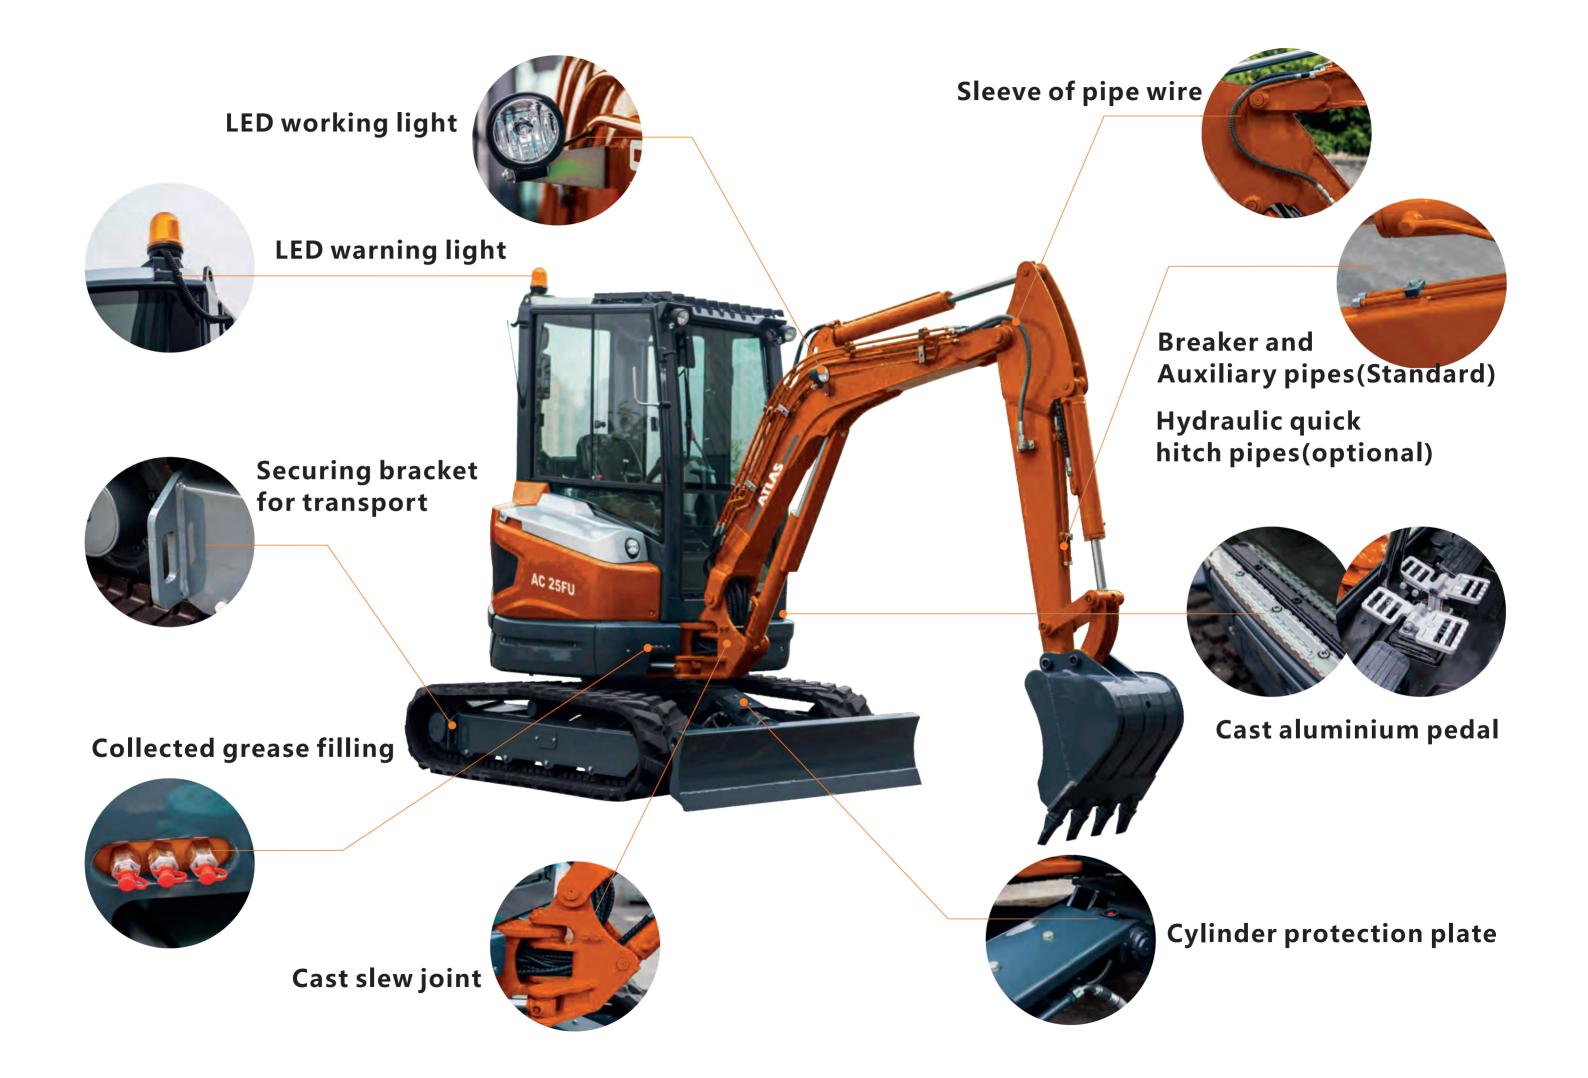

Electric oil suction pump

Fuel filler

Return oil filter Coolant filler

Fuel filter

Battery

Equipment

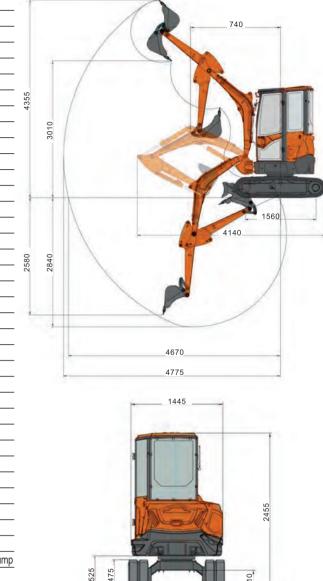

The regular and optional equipment varies from country to country. For more information, please contact with us.

Notes:

- 1. Load with * is limited by hydraulic capacity and based on ISO 10567.Rated loads do not exceed 87% of hydraulic capacity.
- 2. Load without * is limited by tipping load and based on ISO 10567.Rated loads do not exceed 75% of tipping capacity.
- 3. The excavator bucket, hook, sling and other lifting accessories are not included in this table.
